

Southwestern Wisconsin Community Action Program

Dodgeville, WI
www.swcap.org

SWCAP has been in operation as a community action agency in southwestern Wisconsin since 1966. SWCAP's primary mission is to involve low-income people in developing and carrying out anti-poverty programs to help increase their self-sufficiency and overall health and well-being. Annually, SWCAP undertakes a Community Needs Assessment providing updated demographic data and relevant community information to identify the strengths, needs, and trends that impact the design and implementation of SWCAP's various programs.

PCG is providing a construction loan on a commercial building currently owned by SWCAP for the expansion of a dental clinic that serves low income children. The expansion will add 8 dental operators, a waiting room, a reception area, and offices. Our loan will be repaid by a permanent loan from the USDA, which has already been approved and committed.

Not only do we offer restorative care for people, but also preventive care and the education people need so they can be healthier. We try to stress that preventive dental care is essential for people to succeed. The need is significant and we are trying to grow to meet more of that need.
– Ken Loving, MD, Chief Executive Officer

PCG Loan Amount: \$625,000

Partner: Forward Community Investments

Total Loan Amount: \$1,310,400
